

Encrypt Scan Documentation

Overview: How to use Encrypt Scan

iOS Encrypt Scan Documentation

Located on The Hub. To find these documents click Departments/Programs on the top header, then click IT and scroll to the bottom of the page.

Android Documentation

Located on The Hub. To find these documents click Departments/Programs on the top header, then click IT and scroll to the bottom of the page.

- Step 1: Open one of the documents above that coordinates with what phone you have. iPhone users should open the iOS Documentation, and Android users should open the Android Documentation.
- Step 2: Follow the Login Process (Pages 3-6). On Step 6 it will ask you to enter a pin. If you are using an **Android** phone it will give you a second option of using a fingerprint, please choose the pin option. Please use 2270 for the pin.
- Step 3: For scanning a document with your phone please follow Pages 7-11 on the corresponding documentation, listed above, that corresponds to what phone you have.
- Step 4: The other portion of Encrypt Scan is fillable forms that are replicas of the forms you use daily. Please follow the steps below for everything regarding forms.
- Open the Encrypt Scan app on your device.
 - Tap the blue button located at the bottom, middle of the screen
 - Select New Form and find the form you are looking for. Forms are pre-fixed with the division that you are looking for. You can also Search in the box above for your division and it will filter out all the forms for your specific division (i.e Keystone, AHC, ILS, OLTL, Autism, PHW). Plan of Care Sign In Sheet is the only form that is not pre-fixed and is located at the bottom of the list.
 - Fill out the fields in the form and once done tap the blue Save button in the right of the screen.
- Step 5: Once you hit Save on the form please type in a name for your Form/Document, and tap the blue save button.
- Step 6: Once you are ready to upload the Form/Document tap on the grey circle at the far right of your entry, it will turn blue and a checkmark will appear in the circle showing that you selected it.
- Step 7: Tap the Up Arrow in the top right, and then tap the blue Upload button to upload it to the Cloud.

Step 8: The link for the Encrypt Scan Cloud Portal on your browser is -

<https://app.encryptscan.com/auth/signin> . Once on here you can sign in using your UDS Email and the process is similar to how you logged in your phone. After typing in your email and clicking the blue “Sign In” button you will receive an email that has a log in link for you to click on.

Step 9: Find the document you want to download and check the grey box on the far left, this will give you the option to download the selected form/document. A green download button will appear and you can click that to download the form/document. Once downloaded the grey status of “Not Downloaded” will change to a green “Downloaded” and the file will be downloaded to your Download folder. You can then move it from your Downloads folder to your desired location on the network.
