

How to turn on and connect to mobile hotspot **with your iPhone or Android**

iPhone Instructions:

Step 1: Tap on “Settings” on the home screen of your iPhone.

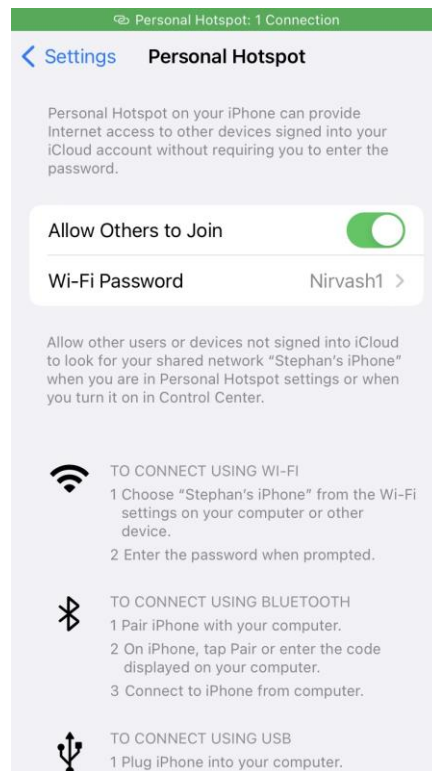

Step 2: From Settings Tap on “Personal HotSpot”

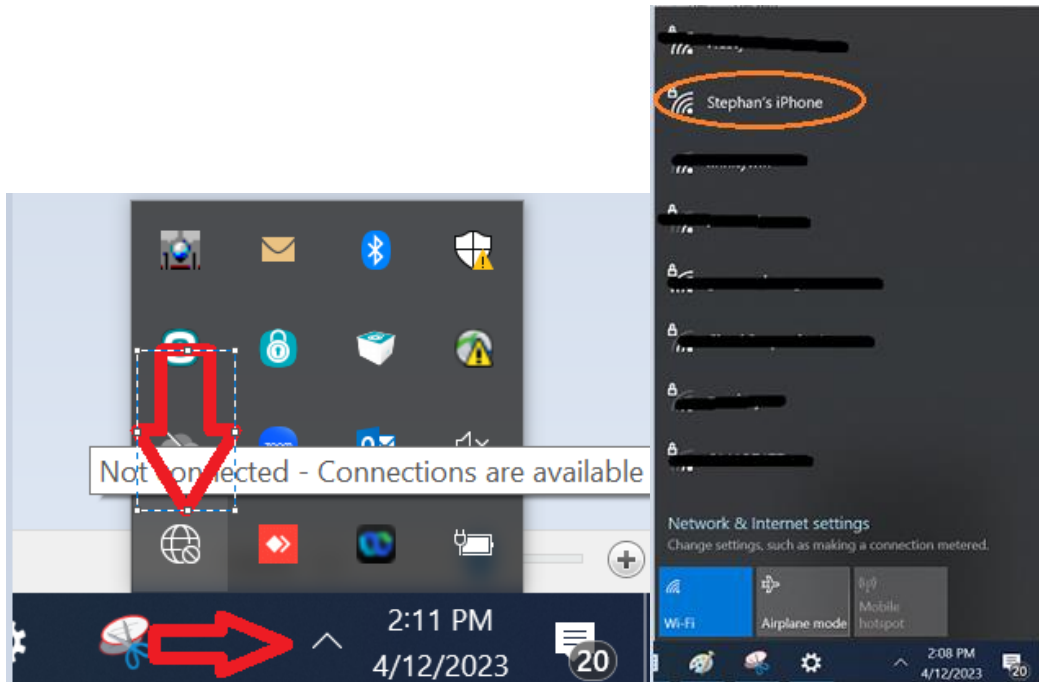

Step 3: Tap on the slider next to where it says “Allow others to Join” and push the slider Green. Keep this screen open to reference your wi-fi password.

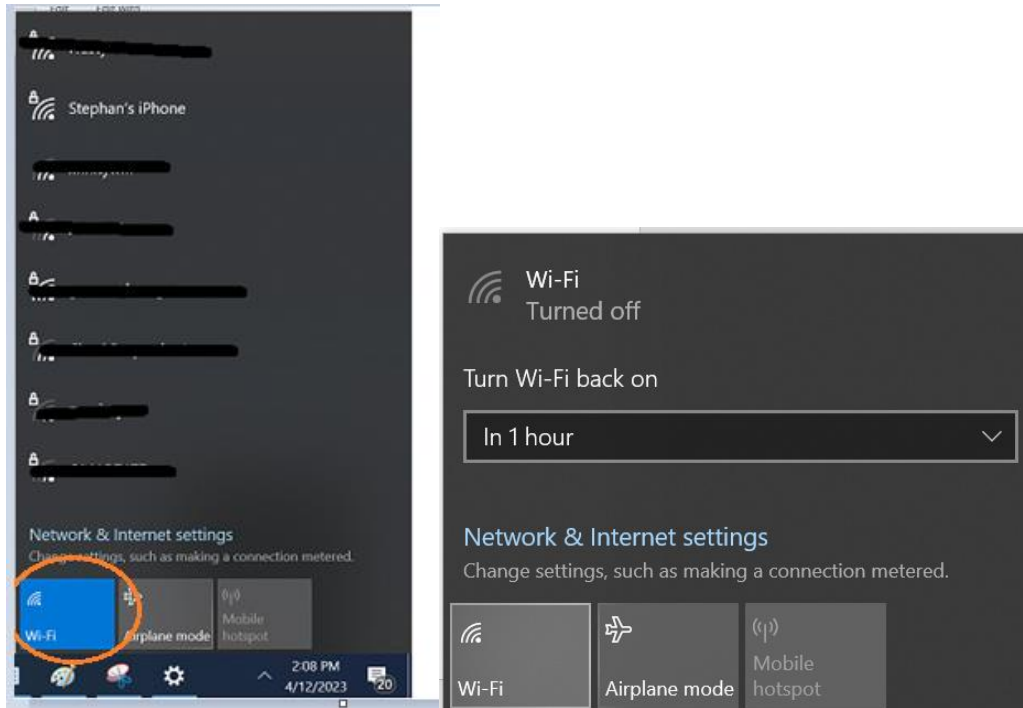

Step 4: On your laptop if you click on the available Network Connections You should see the hotspot for your iphone listed. Click and select “Connect” and put in the wi-fi password for the security key that is requested. (If you do not see your hotspot network listed please try step 5)

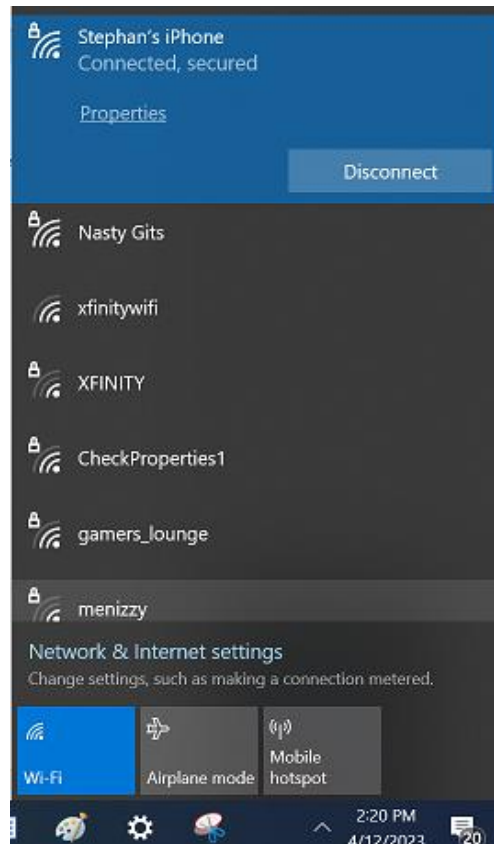

Step 5: If you do not see your hotspot network listed for your phone please click the square “Wi-fi” to turn off wi-fi turn it back on to refresh your list of networks. You may have to turn the slider for the hotspot off/on shown in step 3 to refresh the mobile hotspot to see the network listed.

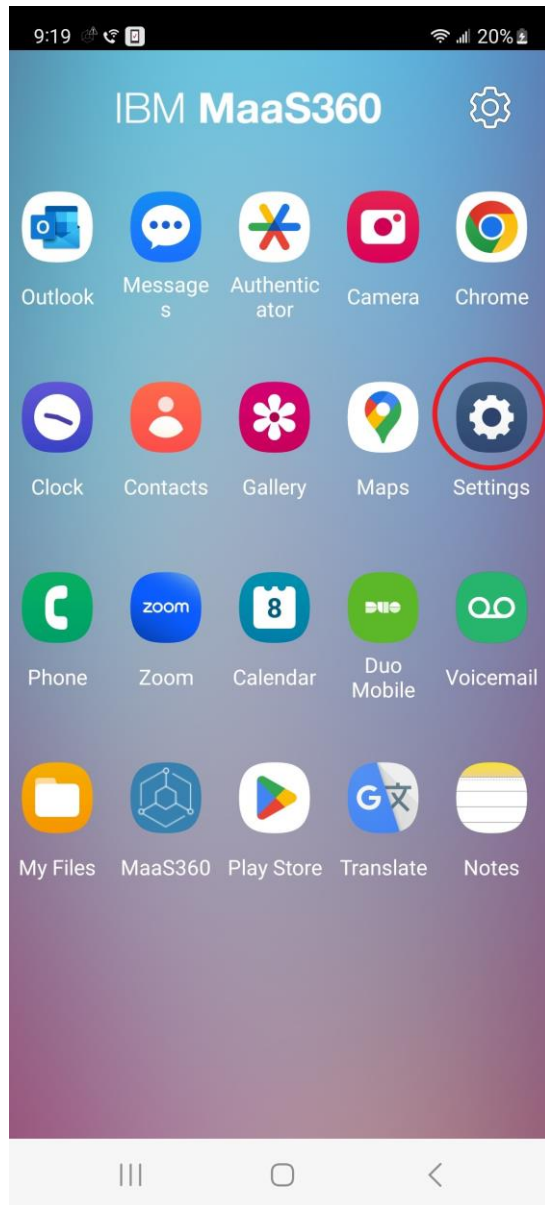

Step 6: Once the Network Shows connected please wait a few moments and test your internet connection by attempting to load a webpage. If you still experience issues please e-mail into IThelpdesk@udservices.org with a brief description of the steps you have tried for assistance.
